

# **CSCD 211**

## **Lab 7**

You are a programmer in the IT department of an important law firm. Your job is to create a program that will report gross salary amounts and other compensation.

There are three types of employees in your firm:

- Programmers
- Lawyers
- Accountants

Your computer-based solution will use inheritance to reflect the ‘general-to-specific’ nature of your employee hierarchy.

### **TO TURN IN**

A zip file that contains Lab 7 – Abstract:

- All the packages and Java files needed to compile and run your program
- An output run named cscd211Lab7out.txt

Zip named last name first letter of first name lab7.zip (Example: steinerslab7.zip)
